

# Welcome to TMU Libraries

Information for Faculty, Instructors  
and Graduate Students

## **Increase your impact**

- Request subject librarian led research workshops for courses.
- Submit course readings for digitization and inclusion in D2L.

## **Grow your ideas**

- Learn more about research and scholarly dissemination, impact and reach.
- Publish open access scholarship through TMU Libraries' Open Journal System.

## **Advance your research**

- Identify journals for publishing your research.
- Discover emerging best practices for academic publishing.

- Direct accessible formatting requests to Library Accessibility Services.
- Access support for Open Educational Resources (OER) creation.
- Access copyright and author rights support.
- Connect with collaborative research partners at the Library Collaboratory.
- Access over a million scholarly resources including digital, streaming, print and material collections.
- Get support with research data management (RDM) planning.

## Increase your impact

- Explore a rich collection of unique publications, photographic materials, and historical objects in Special Collections.
- Connect with the Archives to discover historical records of Toronto Metropolitan University.
- Access GIS, map, statistics and data resources through the Geospatial Map and Data Centre (GMDC).
- Discover TMU Libraries' drones program for data collection and research.

## **Where to find:**

“I’m very thankful to the well-informed and approachable Library Research Data Management team, who helped us complete a data management plan that was well-received by the government, within just 3 months. I strongly believe their support services are fundamental for Toronto Metropolitan University’s increasing success in innovative research.”

~ Dr. Marshia Akbar, Senior Research Associate, Canada Excellence Research Chair in Migration and Integration, Toronto Metropolitan University
